Our team

CMA features a team of over 160 professionals covering a wide range of disciplines.

Our team includes architects, engineers, PhDs, PMP's (Project Management Professionals), as well as cost estimating, scheduling and construction management and individuals certified in OSHA and Juris Doctor.

This wealth of expertise translates to the majority of our team members hold professional licenses, making them highly qualified in their respective fields, enabling us to handle virtually all technical aspects required for your project, from inception to completion.
